WORLDWIDE NONVIOLENT RESISTANCE TO ELITE CONTROL _ THE GREAT RESET

What is the Fourth Industrial Revolution? Why Choose Not to Buy 5G or Smart Devices/Systems?

The **fourth industrial revolution** refers to technologies that will fundamentally alter what it means to be human (including through **transhumanism**) as well as our relationships with each other and the natural world. These technologies include developments in relation to

- 5G and 6G
- military weapons
- artificial intelligence [AI]
- big data
- nanotechnology and biotechnology,
- robotics
- the Internet of Things [IoT]
- quantum computing

These technologies pose a fundamental threat to human identity, human freedom, human dignity, human volition and human privacy.

As part of this, we need to be aware that the ongoing **electrification of human society** that has taken place over the past 150 years means that we are now bathed in the 60-cycle current in our house-wiring; the ultrasonic frequencies in our computers, Wi-Fi routers and modems; the radio waves in our televisions; the microwaves in our cell phones and the electromagnetic radiation generated by everything from baby monitors to ‘smart’ devices of all kinds, as well as the vast network of satellites, transmission towers and power lines all endlessly but variably impacting, adversely, virtually every human being on Earth. **And if 5G is (fully) deployed, there will be nowhere on Earth that is safe for humans, insects, birds, animals and plants.**

If fully deployed, 5G and other technologies will enable **comprehensive surveillance** of the human population, **digital identity** linked to financial and health records leading to a ‘**social credit**’ system, the **digitization of the money supply**, the **robotization** of the workforce and other measures that will **remove our autonomy as individuals.**

Refusing to buy 5G is the first step: the two most powerful actions you can take personally against 5G are 1) to **return to landline communications** technology, and cease using Wifi for computers, phones and all ‘smart’ devices, and 2) **conscientiously refuse to accept ‘vaccination’ or any medical treatment or biosecurity implant** where you run the risk of having nanotechnology or radio frequency technology placed inside your body.

For references explaining many aspects of the fourth industrial revolution and transhumanism, see:
